Item 1

CVS Corporation Notes to Consolidated Condensed Financial Statements (Unaudited)

4

Note 1

The accompanying consolidated condensed financial statements of CVS Corporation ("CVS" or the "Company") have been prepared without audit, in accordance with the rules and regulations of the Securities and Exchange Commission. In accordance with such rules and regulations, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted, although the Company believes that the disclosures included herein are adequate to make the information presented not misleading. These consolidated condensed financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 29, 2001.

In the opinion of management, the accompanying consolidated condensed financial statements include all adjustments (consisting only of normal recurring adjustments) which are necessary to present a fair statement of the Company's results for the interim periods presented. Because of the influence of various factors on the Company's operations, including certain holidays and other seasonal influences, net earnings for any interim period may not be comparable

to the same interim period in previous years or necessarily indicative of earnings for the full fiscal year.

Certain reclassifications have been made to prior year's amounts to conform to the current period presentation.

Note 2

The Company currently operates two business segments, Retail Pharmacy and Pharmacy Benefit Management ("PBM"). The Company's business segments are operating units that offer different products and services, and require distinct technology and marketing strategies.

As of June 29, 2002, the Retail Pharmacy segment included 3,969 retail drugstores and the Company's online retail website, CVS.com. The retail drugstores are located in 26 states and the District of Columbia, operating under the CVS or CVS/pharmacy name. The Retail Pharmacy segment is the Company's only reportable segment.

The PBM segment provides a full range of prescription benefit management services to managed care and other organizations. These services include plan design and administration, formulary management, mail order pharmacy services, claims processing and generic substitution. The PBM segment also includes the Company's specialty pharmacy business which focuses on supporting individuals that require complex and expensive drug therapies. The PBM segment operates under the PharmaCare Management Services name, while the specialty pharmacy mail order facilities and 33 retail pharmacies, located in 20 states and the District of Columbia, operate under the CVS ProCare name.

	====		 	=====	

Note 3

During the fourth quarter of 2001, management approved an Action Plan, which resulted from a comprehensive business review designed to streamline operations and enhance operating efficiencies.

Following is a summary of the specific initiatives contained in the Action Plan:

- 229 CVS/pharmacy and CVS ProCare store locations (the "Stores") would be closed by no later than March 2002. Since these locations were leased facilities, management planned to either return the premises to the respective landlords at the conclusion of the current lease term or negotiate an early termination of the contractual obligations. As of March 31, 2002, all of the Stores were closed.
- 2. The Henderson, North Carolina distribution center (the "D.C.") would be closed and its operations would be transferred to the Company's remaining distribution centers by no later than May 2002. Since this location was owned, management planned to sell the property upon closure. The D.C. was closed in April 2002 and was sold in May 2002.
- 3. The Columbus, Ohio mail order facility (the "Mail Facility") would be closed and its operations would be transferred to the Company's Pittsburgh, Pennsylvania mail order facility by no later than April 2002. Since this location was a leased facility, management planned to either return the premises to the landlord at the conclusion of the lease or negotiate an early termination of the contractual obligation. The Mail Facility was closed in March 2002.

6

Part I

Item 1

CVS Corporation Notes to Consolidated Condensed Financial Statements (Unaudited)

- 4. Two satellite office facilities (the "Satellite Facilities") would be closed and their operations would be consolidated into the Company's Woonsocket, Rhode Island corporate headquarters by no later than December 2001. Since these locations were leased facilities, management planned to either return the premises to the landlords at the conclusion of the leases or negotiate an early termination of the contractual obligations. The Satellite Facilities were closed in December 2001.
- Approximately 1,500 managerial, administrative and store employees in the Company's Woonsocket, Rhode Island corporate headquarters; Columbus Mail Facility; Henderson D.C. and the Stores would be terminated. As of April 30, 2002, all of these employees had been terminated.

In accordance with, Emerging Issues Task Force Issue 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an

Activity (Including Certain Costs Incurred in a Restructuring)," Statement of Financial Accounting Standards ("SFAS") No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" and Staff Accounting Bulletin No. 100, "Restructuring and Impairment Charges," the Company recorded a \$346.8 million pre-tax charge (\$226.9 million after-tax) to operating expenses during the fourth quarter of 2001 for restructuring and asset impairment costs associated with the Action Plan. In accordance with Accounting Research Bulletin No. 43, "Restatement and Revision of Accounting Research Bulletins," the Company also recorded a \$5.7 million pre-tax charge (\$3.6 million after-tax) to cost of goods sold during the fourth quarter of 2001 to reflect the markdown of certain inventory contained in the Stores to its net realizable value. In total, the restructuring and asset impairment charge was \$352.5 million pre-tax, or \$230.5 million after-tax (the "Restructuring Charge").

Following is a reconciliation of the beginning and ending liability balances associated with the Restructuring Charge as of the respective balance sheet dates:

In millions	Noncancelable Obligations		Asset Writ	e-Offs	Severance &	ployee nefits
Restructuring Charge Utilized - Cash Utilized - Noncash	\$	227.4	\$	105.6 (105.6)		\$ 19.5 (2.1)
Balance at 12/29/01 Utilized - Cash	\$	227.4 (18.4)	\$	 		\$ 17.4 (12.1)
Balance at 06/29/02/(2)/	\$	209.0	\$			\$ 5.3

(1) Noncancelable lease obligations extend through 2024.

(2) The Company believes that the reserve balances as of June 29, 2002 are adequate to cover the remaining liabilities associated with the Action Plan.

Note 4

Following are the components of net interest expense:

In millions	June 29	13 weeks , 2002	 2001	June 29,	26 weeks 2002		2001
Interest expense Interest income	\$	14.7 (0.9)	\$ 16.1 (1.0)	Ş	29.2 (2.3)	Ş	33.1 (2.3)
Interest expense, net	\$	13.8	\$ 15.1	\$ \$	26.9	\$	30.8

Part I

Item 1

CVS Corporation Notes to Consolidated Condensed Financial Statements (Unaudited)

Note 5

Effective at the beginning of fiscal 2002, the Company adopted SFAS No. 142, "Goodwill and Other Intangible Assets." As a result of the adoption, goodwill and other indefinite-lived intangible assets are no longer being amortized, but are subject to annual impairment reviews, or more frequently if events or circumstances indicate there may be an impairment. During the second quarter of 2002, the company completed the implementation impairment review as required. The review concluded there was no impairment of goodwill at the time of implementation.

The impact of discontinuing the amortization of goodwill and indefinite-lived intangible assets on net earnings for the thirteen and twenty-six weeks ended June 30, 2001 would have been \$7.4 million or \$0.02 per diluted share and \$14.1 million or \$0.03 per diluted share, respectively. Excluding goodwill amortization, adjusted net earnings for the thirteen weeks ended June 30, 2001 would have been \$205.4 million or \$0.50 per diluted share. Adjusted net earnings for the twenty-six weeks ended June 30, 2001 would have been \$433.8 million or \$1.05 per diluted share.

The carrying amount of goodwill as of June 29, 2002 was \$878.1 million. The change in goodwill during the twenty-six weeks ended June 29, 2002 was primarily due to store acquisitions. There was no impairment of goodwill during the quarter.

Intangible assets other than goodwill are separated into two categories, finite-lived and indefinite-lived. Intangible assets with finite useful lives are amortized over their estimated useful life, while intangible assets with indefinite useful lives are not amortized. The Company currently has no intangible assets with indefinite lives. Following is a summary of the Company's amortizable intangible assets as of the respective balance sheet dates:

	As of June 29, 2002				A	s of Decemb
In millions	Carrying	Gross Amount		umulated tization	Carrying	Gross Amount
Customer lists and Covenants not to compete Favorable leases and Other	\$	423.6 133.9	\$	(172.4) (65.6)	\$	379.7 138.8
	\$	557.5	\$\$	(238.0)	\$	518.5

The amortization expense for these intangible assets for the thirteen and twenty-six week periods ended June 29, 2002 was \$12.6 million and \$24.7 million, respectively. The anticipated annual amortization expense for these intangible assets is \$52.1 million, \$47.6 million, \$40.3 million, \$35.1 million, \$33.2 million and \$31.4 million in 2002, 2003, 2004, 2005, 2006 and 2007,

respectively.

8

Part I

Item 1

CVS Corporation Notes to Consolidated Condensed Financial Statements (Unaudited)

Note 6

Basic earnings per common share is computed by dividing: (i) net earnings, after deducting the after-tax dividends on the ESOP preference stock, by (ii) the weighted average number of common shares outstanding during the period (the "Basic Shares").

When computing diluted earnings per common share, the Company assumes that the ESOP preference stock is converted into common stock and all dilutive stock options are exercised. After the assumed ESOP preference stock conversion, the ESOP Trust would hold common stock rather than ESOP preference stock and would receive common stock dividends (currently \$0.23 per share) rather than ESOP preference stock dividends (currently \$3.90 per share). Since the ESOP Trust uses the dividends it receives to service its debt, the Company would have to increase its contribution to the ESOP Trust to compensate it for the lower dividends. This additional contribution would reduce the Company's net earnings, which in turn, would reduce the amounts that would have to be accrued under the Company's incentive compensation plans. Diluted earnings per common share is computed by dividing: (i) net earnings, after accounting for the difference between the dividends on the ESOP preference stock and common stock and after making adjustments for the incentive compensation plans by (ii) Basic Shares plus the additional shares that would be issued assuming that all dilutive stock options are exercised and the ESOP preference stock is converted into common stock.

Following is a reconciliation of basic and diluted earnings per common share for the thirteen and twenty-six week periods listed below:

		 s ended		
In millions, except per share amounts	J	une 29,	June 30, 2001	Jur

Part I

Independent Auditors' Review Report

The Board of Directors and Shareholders CVS Corporation:

We have reviewed the consolidated condensed balance sheet of CVS Corporation and subsidiaries as of June 29, 2002, and the related consolidated condensed statements of operations and cash flows for the thirteen and twenty-six week periods ended June 29, 2002 and June 30, 2001. These consolidated condensed financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated condensed financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of CVS Corporation and subsidiaries as of December 29, 2001 and the related consolidated statements of operations, shareholders' equity, and cash flows for the fifty-two week period then ended (not presented herein); and in our report dated February 1, 2002 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated condensed balance sheet as of December 29, 2001, is fairly presented, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

/s/ KPMG LLP -----KPMG LLP

Providence, Rhode Island July 26, 2002

Part I Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

The following discussion explains the material changes in our results of operations for the thirteen and twenty-six weeks ended June 29, 2002 and the significant developments affecting our financial condition since December 29, 2001. We strongly recommend that you read our audited consolidated financial statements and footnotes and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended December 29, 2001.

Results of Operations

Thirteen and Twenty Six-Weeks Ended June 29, 2002 versus June 30, 2001

Net sales ~ The following table summarizes our sales performance for the respective periods:

	13 weeks	13 weeks ended			
	June 29,	June 30,	June 29,		
	2002	2001	2002		
Net sales (in billions)	\$ 6.0	\$ 5.5	\$ 12.0		
Net sales increase:					
Total	9.0%	11.2%	9.9%		
Pharmacy	12.0%	15.9%	11.8%		
Front Store	3.2%	2.9%	6.1%		
Same store sales increase:					
Total	8.6%	8.3%	9.4%		
Pharmacy	12.3%	13.2%	12.0%		
Front Store	1.7%	0.1%	4.4%		
Pharmacy percentage of total sales	67.9%	66.0%	67.7%		
Third party percentage of pharmacy sales	91.5%	90.9%	91.9%		

As you review our sales performance, we believe you should consider the following important information:

- . Our pharmacy sales growth continued to benefit from our ability to attract and retain managed care customers and favorable industry trends. These trends include an aging American population; many "baby boomers" are now in their fifties and are consuming a greater number of prescription drugs. The increased use of pharmaceuticals as the first line of defense for healthcare also contributed to the growing demand for pharmacy services.
- Pharmacy sales were negatively impacted due to recent generic drug introductions, which are being substituted for higher priced brand named drugs. Excluding the recent generic drug introductions, we estimate, total same store sales growth for the second quarter of 2002 would have been approximately 100 basis points higher, while pharmacy same store sales growth would have been approximately 150 basis points higher. For the first six months of 2002, we estimate total and pharmacy same store sales growth would have been approximately 75 basis points and 110 basis

points higher, respectively.

Front store sales for the thirteen weeks ended June 29, 2002 were negatively impacted by an early Easter (March 31st this year versus April 15th last year), which shifted holiday sales from the second quarter into the first quarter. Excluding the impact of the Easter shift, we estimate total same store sales growth for the second quarter of 2002 would have been approximately 80 basis points higher, while front store same store sales growth would have been approximately 240 basis points higher. The Easter shift had no impact on the first six months of 2002.

11

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

- . Front store sales benefited from increased promotional activity in response to the competitive and economic environment. During the remainder of 2002, we will continue to actively monitor competitive market conditions and will adjust our promotional activity accordingly.
- . Total sales were negatively impacted by the 229 stores closed during the first quarter of 2002 as part of the Action Plan. We estimate that the impact of the store closings, net of sales which we believe transferred to our remaining stores, lowered our total sales growth by approximately 120 basis points for the second quarter of 2002 and approximately 105 basis points for the first six months of 2002. However, we believe the sales which transferred to our remaining stores benefited total same store sales growth by approximately 65 basis points for the second quarter of 2002 and approximately 60 basis points for the first six months of 2002.
- . Total sales also continued to benefit from our active relocation program, which seeks to move our existing shopping center stores to larger, more convenient, freestanding locations. Historically, we have achieved significant improvements in customer count and net sales when we do this. Although the number of annual relocations has decreased, our relocation strategy remains an important component of our overall growth strategy, as only 45% of our existing stores were freestanding as of June 29, 2002. Our current long-term expectation is to have 70 to 80% of our stores located in freestanding locations. We cannot, however, guarantee that we will achieve this level or that future store relocations will deliver the same positive results as those historically achieved. Please read the "Cautionary Statement Concerning Forward-Looking Statements" section below.

Gross margin for the second quarter of 2002 increased \$22.7 million (or 1.6%) to \$1,481.1 million, or 24.7% of net sales, compared to \$1,458.4 million, or 26.5% of net sales in the second quarter of 2001. Gross margin for the first six months of 2002 increased \$63.0 million (or 2.2%) to \$3.0 billion, or 24.9% of net sales, compared to \$2.9 billion, or 26.8% of net sales in the first six months of 2001.

Why has our gross margin rate been declining?

. Sales to customers covered by third party insurance programs have

continued to increase and, thus, have become a larger part of our total pharmacy business. On average, our gross margin on third party pharmacy sales is lower than our gross margin on cash pharmacy sales. Third party prescription sales for the second quarter and first six months of 2002 were 91.5% and 91.9%, respectively, of pharmacy sales, versus 90.9% in the second quarter of 2001 and 90.6% in the first six months of 2001.

- In recent years, our third party gross margin rates have been adversely affected by the efforts of managed care organizations, pharmacy benefit managers, governmental and other third party payors to reduce prescription drug costs. To address this trend, we have dropped and/or renegotiated a number of third party programs that fell below our minimum profitability standards. These efforts have helped to stabilize third party reimbursement rates. However, in recent months, as a result of increasing budget shortfalls, numerous state legislatures have proposed or are reported to be considering reductions in pharmacy reimbursement rates for Medicaid and other governmental programs. In the event this trend continues and we elect to withdraw our participation in third party programs and/or decide not to participate in future programs that fall below our minimum profitability standards, we may not be able to sustain our current rate of sales growth and gross margin dollars could be adversely affected.
- Pharmacy sales are growing at a faster pace than front store sales. On average, our gross margin on pharmacy sales is lower than our gross margin on front store sales. Pharmacy sales as a percentage of total sales for the second quarter and first six months of 2002 were 67.9% and 67.7%, respectively, compared to 66.0% in the second quarter of 2001 and 66.5% in the first six months of 2001.

12

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Also contributing to the decline during 2002 was an increase in markdowns associated with the increased promotional activity discussed above and elevated physical inventory losses, offset, in part, by the increase in generic drug sales (discussed above), which generally yield a higher gross margin rate than brand named drug sales. To address the physical inventory loss trend, we initiated a number of programs, including, but not limited to, moving high-cost merchandise behind the counter or glass and improving our employee background screening and testing programs. We believe these efforts will begin to reduce inventory losses during the latter part of 2002. However, we cannot guarantee that these programs will produce the desired results.

Total operating expenses for the second quarter of 2002 increased \$66.4 million (or 5.9%) to \$1,182.8 million, or 19.8% of net sales, compared to \$1,116.4 million, or 20.3% of net sales in the second quarter of 2001. Total operating expenses for the first six months of 2002 increased \$191.6 million (or 8.8%) to \$2,380.0 million, or 19.9% of net sales, compared to \$2,188.4 million, or 20.1% of net sales in the first six months of 2001.

What have we done to improve our total operating expenses as a percentage of net sales?

- . The initiatives completed as part the Action Plan and other technology enhancements have lead to a more streamlined operating structure, which lowered operating costs, particularly at the store level.
- . As a result of the adoption of SFAS No. 142 at the beginning of fiscal 2002, we no longer amortize goodwill and other indefinite-lived intangible assets. For further information on SFAS No. 142, see Note 5 to the consolidated financial statements.
- . Our strong sales performance has consistently allowed net sales to grow at a faster pace than total operating expenses.

Operating profit for the second quarter of 2002 decreased \$43.7 million (or 12.8%) to \$298.3 million, or 5.0% of net sales, compared to \$342.0 million or 6.2% of net sales in the second quarter of 2001. For the first six months of 2002, operating profit decreased \$128.6 million (or 17.8%) to \$594.8 million, or 5.0% of net sales, compared to \$723.4 million, or 6.6% of net sales in the first six months of 2001.

Interest expense, net consisted of the following:

In millions	June 2	13 week 9, 2002	s ended June 30,	2001	June 29,	26 weeks 2002		2001
Interest expense Interest income	\$	14.7 (0.9)	Ş	16.1 (1.0)	\$	29.2 (2.3)	\$	33.1 (2.3)
Interest expense, net	\$	13.8	\$	15.1	\$	26.9	\$ \$	30.8

The decrease in interest expense for the thirteen and twenty-six weeks ended June 29, 2002 was primarily due to lower average interest rates during 2002 compared to 2001.

Income tax provision ~ Our effective income tax rate was 38.0% for the second quarter and first six months of 2002, compared to 39.4% for the respective periods of 2001. The decrease in our effective income tax rate was primarily due to the elimination of goodwill amortization that was not deductible for income tax purposes and lower state income taxes.

Net earnings for the second quarter of 2002 decreased \$21.6 million (or 10.9%) to \$176.4 million, or \$0.43 per diluted share, compared to \$198.0 million, or \$0.48 per diluted share, in the second quarter of 2001. Net earnings for the first six months of 2002 decreased \$67.6 million (or 16.1%) to \$352.1 million, or \$0.86 per diluted share, compared to \$419.7 million, or \$1.02 per diluted share, in the first six months of 2001.

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity and Capital Resources

We fund the growth of our business through a combination of cash flow from operations, commercial paper and long-term borrowings. Our liquidity is not currently dependent on the use of off-balance sheet transactions other than normal operating leases.

We had \$488.4 million of commercial paper outstanding at a weighted average interest rate of 1.9% as of June 29, 2002. In connection with our commercial paper program, we maintain a \$650 million, five-year unsecured back-up credit facility, which expires on May 21, 2006 and a \$650 million, 364-day unsecured back-up credit facility, which expires on May 19, 2003. As of June 29, 2002, we had not borrowed against the credit facilities.

Our credit facilities and unsecured senior notes contain customary restrictive financial and operating covenants. We do not believe that the restrictions contained in these covenants materially affect our financial or operating flexibility.

We believe that our cash on hand and cash provided by operations, together with our ability to obtain additional short-term and long-term financing, will be sufficient to cover our working capital needs, capital expenditures and debt service requirements for at least the next twelve months and beyond.

Net cash provided by operating activities increased to \$348.3 million in the first six months of 2002, compared to \$127.0 million during the first six months of 2001. The improvement in net cash provided by operations was primarily the result of improved working capital management. Cash provided by operating activities will be negatively impacted by future payments associated with the Restructuring Charge. The timing of future cash payments related to the Restructuring Charge depend on when, and if, early lease terminations can be reached. As of June 29, 2002, the remaining payments, which primarily consist of noncancelable lease obligations extending through 2024, totaled \$214.3 million.

Net cash used in investing activities increased to \$473.9 million during the first six months of 2002. This compares to \$363.5 million during the first six months of 2001. The increase in net cash used in investing activities was primarily due to higher additions to property and equipment. Additions to property and equipment totaled \$590.3 million in the first six months of 2002, compared to \$275.8 million in the first six months of 2001. The majority of our capital spending in both quarters supported our real estate development program. During the first six months of 2002, we opened 74 new stores, relocated 55 stores and closed 263 stores. For the year, we plan to open approximately 250-275 stores, consisting of approximately 150-175 new stores and 100 relocations. Approximately, 70-75 of our new stores are expected to be in new markets. We finance a portion of our new store development program through sale-leaseback transactions. Proceeds from sale-leaseback transactions totaled \$135.5 million for the six months of 2002. The properties were sold at net book value and the resulting leases qualify and are accounted for as operating leases. As of June 29, 2002, we operated 4,002 retail and specialty pharmacy stores in 32 states and the District of Columbia, compared to 4,130 stores as of June 30, 2001.

Part I Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Statement Concerning Forward-Looking Statements ~ The Private

Securities Litigation Reform Act of 1995 (the "Reform Act") provides a safe harbor for forward-looking statements made by or on behalf of CVS Corporation. The Company and its representatives may, from time to time, make written or verbal forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and in its reports to stockholders. Generally, the inclusion of the words "believe," "expect," "intend," "estimate," "anticipate," "will," and similar expressions identify statements that constitute "forward-looking statements". All statements addressing operating performance of CVS Corporation or any subsidiary, events, or developments that the Company expects or anticipates will occur in the future, including statements relating to sales growth, earnings or earnings per common share growth, free cash flow, inventory levels and turn rates, store development, relocations and new market entries, as well as statements expressing optimism or pessimism about future operating results or events, are forward-looking statements within the meaning of the Reform Act. The forward-looking statements are and will be based upon management's then-current views and assumptions regarding future events and operating performance, and are applicable only as of the dates of such statements. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. By their nature, all forward-looking statements involve risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements for a number of reasons, including but not limited to:

- .. The strength of the economy in general or in the markets served by CVS, including changes in consumer purchasing power and/or spending patterns;
- .. Increased competition from other drugstore chains, from alternative distribution channels such as supermarkets, membership clubs, mail order companies, discount retailers and internet companies (e-commerce) and from other third party plans;
- .. Changes in consumer preferences or loyalties;
- .. Price reductions taken by the Company in response to competitive pressures, as well as price reductions taken to drive demand that may not result in anticipated sales levels;
- .. Our ability to achieve projected levels of efficiencies, cost reduction measures and other benefits from the Action Plan announced during the fourth quarter of fiscal 2001 and other initiatives;
- .. The effects of litigation and the creditworthiness of the purchasers of former businesses whose store leases are guaranteed by CVS;
- .. Our ability to generate sufficient cash flows to support capital expansion, and general operating activities, and our ability to obtain necessary financing at favorable interest rates;
- .. Changes in laws and regulations, including changes in accounting standards, taxation requirements, including tax rate changes, new tax laws and revised tax law interpretations;
- .. Interest rate fluctuations and other capital market conditions;
- .. The continued introduction of successful new prescription drugs;
- .. The continued efforts of health maintenance organizations, managed care organizations, pharmacy benefit management companies and other third party payers to reduce prescription drug costs;
- .. Our ability to continue to successfully implement new computer systems and

technologies;

- .. Our ability to successfully attract customers through our customer reactivation program;
- .. Our ability to continue to secure suitable new store locations at favorable lease terms;
- .. Our ability to continue to purchase inventory on favorable terms;
- .. Our ability to attract, hire and retain suitable pharmacists and management personnel;

15

Part I Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

- .. Our ability to establish effective advertising, marketing and promotional programs (including pricing strategies) in the different geographic markets in which we operate; and
- .. Other risks and uncertainties detailed from time to time in our filings with the Securities and Exchange Commission.

The foregoing list is not exhaustive. There can be no assurance that the Company has correctly identified and appropriately assessed all factors affecting its business. Additional risks and uncertainties not presently known to the Company or that it currently believes to be immaterial also may adversely impact the Company. Should any risks and uncertainties develop into actual events, these developments could have material adverse effects on the Company's business, financial condition, and results of operations. For these reasons, you are cautioned not to place undue reliance on the Company's forward-looking statements.

16

Part I

Item 3

Quantitative and Qualitative Disclosures About Market Risk

The Company has not entered into any transactions using derivative financial instruments or derivative commodity instruments and believes that its exposure to market risk associated with other financial instruments, principally interest rate risk inherent in its debt portfolio, is not material.
